Following this session you will have the opportunity to avail of a wide range of other specialist supports.

Assessment

This is the next step in your child's journey. This process is tailored to the individual needs of each child and their family and involves multi-professional specialist assessment.

This process may occur over a period of time and typically includes:-

- Completion of a neuro-developmental history if this has not been provided by the referrer or by another service which your child is known to.
- Assessments with your child to observe their social interaction, communication and behaviour.
- Liaison with or referral to other professionals or agencies involved with your child.
- School and/or Home observations.
- In some cases a meeting will be arranged for all professionals who are involved in your child's care to share information as part of the assessment process.
