

OTHER WAYS TO GET INVOLVED ATTENDING SERVICE USER GROUP

The Western Trust is very keen to hear the views of those using their services as a way of receiving feedback and helping influence how services are delivered and developed.

There is now a regional service user group which meets on a regular basis and brings together services users across the trust.

Individuals attending this group have found it to be a very positive and supportive experience and if you would like to join them please contact either

Maureen (Northern Sector) T: 028 7772 2123

or

Bernie (Southern Sector) T: 028 8283 5326

Your local community mental health team may also have its own service group and they would be very keen to have you involved. Please speak to your key worker or team manager who will be able to give you more details.
