Challenges to compliance with Working Time Regulations	For Junior Doctors in training the Trust may not be able to fulfil its statutory obligations under the EWTD and/or New Deal due to the intensity of junior doctors rota or lack of doctors participating on the rotas and/or an inability of the Trust to fill vacant posts by recruitment or agency. □ □ Doctors on full shift rotas and on call rotas may exceed the maximum 48 hours of actual work thus breaching the maximum hours requirement under EWTD. This may also put the rota into a higher Banding Supplement. In particular the unpredictability of on call rotas means that 11 hours continuous rest (or compensatory rest) in every 24 hour period may not be achieved. □ □ "Sleep-in" is a working pattern in residential facilities where a member of staff is required to sleep in the facility as a back up to waking night duty staff. Sleep may be disrupted due to certain situations so compensatory rest is allocated. □	Monitoring of Junior Doctors working hours. Representations made to BLG & NIMMDTA regarding ability to sustain rotas. Payroll alerts to HR on excessive working hours. Directorate Support Team working with W&C Directorate to address situation in Residential Children's Homes. Bi-annual monitoring of hours to determine Junior Doctor workload reported to DOH. Letter sent to Directors and Assistant Director for sharing with staff regarding EWTD requirements in July 2018. Senior HR Managers are assessing the consistency of approach in relation to sleep ins across the Trust. Guidelines to clarify bank arrangements developed (QICR2). Director of Nursing reminding nurses of the need for compliance at Trust Nursing and Midwifery Group. Trust participation on Regional Working Group to review rota for	Despite best efforts the Trust is not always able to meet the requirements of the regulations. Pressure on services due to intensity of attendances at hospital.	Junior Doctors monitoring information submitted to DOH and considered by Board Liaison Group. HSCB, through Board Liaison Group, monitor safe hours of work for Junior Doctors and Dentists. Regional review of Guidance on EWTD and compensatory rest.	Inability of NIMMDTA to fill all posts.	Work continues within relevant Directorates in relation to rotas, sleep ins, etc. Participate in Sleep in statutory cases as required. Continue to populate gaps in rotas with International Recruitment and ongoing engagement with NIMMDTA. Virus attack disables network/services	Information security across the HSC is of critical importance to delivery of care, protection of information assets and many related business processes. If a Cyber incident should occur, without effective security and controls, HSC information, systems and infrastructure may become unreliable, not accessible when required (temporarily or permanently), or compromised by unauthorised 3rd parties including criminals. □ This could result in unparalleled HSC-Wide disruption of services due to lack of/unavailability of systems that facilitate HSC services (e.g. appointments, admissions to hospital, ED attendance) or data contained within. This may result in the need to cancel appointments and treatments, or divert emergency/essential clinical or other services. The significant business disruption could also lead to increased waiting lists, delayed urgent clinical interventions, suboptimal clinical outcomes and potentially bring liabilities for the Service. □	Data & System backups 3rd Secure Remote Access Server / Client patching HSC security software (threat detection, antivirus, email and webfiltering) HSC security hardware (eg firewalls) 3rd Party Contracts / Data access agreements Contract of employment HR Disciplinary Policy Mandatory training policies Induction policy Regional and local Incident Management & reporting policies & procedures Corporate Risk Management framework, Processes & monitoring Emergency planning & Service business continuity plans Disaster recovery plan Usr account management processes Change control processes Data protection Act Regional & Local ICT info security policies Band 7 & band 6 recruited to support Cyber security Trust and Regional Cyber Project Boards	Current inability to obtain 100% coverage on patch updates due to a combination of user behaviours and service needs Insufficient User Awareness of impact of personal behaviours in relation to cyber threat Full extent of gaps are not understood at this point - Gap analysis regionally and locally required by HSC to capture a considered extent of vulnerabilities Insufficient corporate recognition and ownership of cyber security threat as a service delivery risk	Internal audit / IT Dept self-assessment against 10 Steps towards NCSC Technical risks assessments and penetration tests HSC SIRO Forum for shared learning and collaborative action planning and delivery	There is a resource issue regarding Cyber Staff in the Trust. The Business Case that was approved should address this pressure however experience from other Government Organisations would suggest that is difficult to attract and retain specialist skills in this area. Unable to have consistent patching of critical/core serves due to service disruption. Limited testing of Data and Systems restores. Patients in the community may be a greater risk of falls or other injuries. Community service users may have to wait longer for their assessed care package as hospital patients may be prioritised for care packages to maintain hospital flows. Adult Community Care Divisions are experiencing difficulties with accessing responsive domiciliary care service provision due to the following factors: Rurality and the ability to source and secure a sustained domiciliary care service provision in some remote areas across the Trust. This risk is impacting service users and carers across both community and hospital care settings resulting in delayed discharges, temporary placements being made in	Interim additional rotas have been established in 12 locations across the Trust through a co-ordinated exercise to address issues where accessing service provision has been identified across all POC's. The Trust continues to implement its reablement service model which is operationally linked to the reform of its in-house homecare service. The combination of these measures is will assist in addressing the risks being experienced and reported. Failure to comply with procurement legislation re social care procurement	The risk that the Trust will breach UK procurement legislation rules in awarding contracts for the provision of social care services. The legislation outlines that a formal tender process must be followed when awarding contracts that are expected to be above a specified threshold. This is to be managed by BSO PaLS on behalf of all Trusts but the current proposed work programme means that Trusts will not be fully compliant with the legislation for a period of 5 years ending on 31 March 2022.	The issue has been discussed at the Trust's Procurement Board and Social Care Procurement Group. The Trust's Director of Finance & Contracting has highlighted this issue to the Regional Procurement Board.	The Trust does not have the resource or infrastructure required to manage this risk internally. DOH has determined that the issue should be managed regionally.			The 5 year implementation plan will continue to be monitored - via Regional Procurement Board, Trust Procurement Board and Social Care Procurement Group.	31/03/2020

No Deal Scenario / Hard Border EU Exit	With the imminent EU exit, there is potential for a No Deal Scenario or Hard Border between Northern and South of Ireland. The full impact of the UKs exit from the EU is not yet known and given uncertainty around the UK EU ongoing discussions and potential agreements, there may be impacts such as - workforce, including recruitment and retention, changes to regulations, movement of people and goods, border controls and access to healthcare in EU member states. Day one delivery planning is required to ensure services continue to operate effectively on day one following EU Exit and in the longer term, and that there is no, or minimal disruption to services. Although this is categorised as an organisational risk it also has implications for clinical risk, financial risk, patient and client safety and staffing issues/levels. Lead Officer is Paul Quigley and Responsible Director is Lesley Mitchell, Director of Finance and Contracting.	Detailed review of mitigating actions to be completed by 30 December 2018.
