

Cover for NICU Incubator

Goal is to have a cover that blocks light but to give Nurses and Doctors access from the side panels. Must be made to hold together after frequent washes.

Materials Needed

1. Very dark material for underneath 100% cotton.
2. Bright/children material for top 100% cotton

Side Panels

Cut 4 – 18" x 22"

Top Panel

Cut 1 – 33" x 16"

Back Panel

Cut 1 – 30" x 26"

Sewing All Panels

1. Sew dark and bright sides together. Leave opening
2. Turn right side out / iron
3. Zig zag around edges / iron
4. Quilt diagonally
Large stitch 2-3" apart
5. Sew back on top at bottom.
(right sides together)
Should have over hang on both sides.
6. Sew topside panels to top panel
7. Sew bottom side panels to top panel. Should have overlaps
