

CORPORATE RISK REGISTER & ASSURANCE FRAMEWORK

BRIEFING NOTE PREPARED FOR TRUST BOARD
4TH March 2021

There are 20 risks on the Corporate Risk Register as approved at Trust Board on 4th February 2021.

Summary

- New Risk to be added to CRR – Escalation from Directorate Risk (*Lack of endoscopy capacity in the Trust*)
- Update on agreed actions from Trust Board workshop (attached)
- Covid-19 risk ID1213 indicators.

Proposed escalation of Risk ID1219 from Directorate Risk to Corporate Risk Lack of Endoscopy Capacity in the Trust (attached)

CMT on 18th February 2021 proposed that the risk 'Lack of Endoscopy Capacity in the Trust' should be escalated to the Corporate Risk Register. (Risk ID1219)

The wording of the risk is titled:

Lack of endoscopy capacity in the Trust has resulted in breaching of the 2 week red flag waits/9 week urgent and routine wait and surveillance targets for endoscopy. The lack of timeliness for endoscopy is leading to delayed diagnosis of cancer and poor outcome for these patients as evidenced in SIAs.

Note the Risk has also been escalated to the HSCB

Update on agreed actions from Trust Board

Please see attached list of actions as agreed following Trust Board workshop. These actions will be progressed through the normal CMT-Trust Board approval process and an update on progress will continue to be tabled each month.

Covid-19 Risk ID 1213 – Indicators at 11/02/21

New Risk for Inclusion on Risk Register Database

Please complete this form if you have identified a risk which needs to be considered for inclusion on the Trust's Risk Register database. The Trust's Risk Management Strategy, (Flowchart at Appendix 3) sets out the process that must be followed. This is available on the intranet, web-link <http://whsct/intranetnew/Documents/Risk%20Management%20Strategy.pdf>.

The information requested below is required for completion of fields within the Risk Register database (Datix), and is in the order that fields appear on screen. Sections marked with an asterisk (*) are mandatory and must be completed. The completed form should then be considered at the appropriate Sub-Directorate/Divisional/Department Governance meeting. If the risk is approved for inclusion, please then forward the form to the relevant Business Services Officer/Business Services Manager for inputting on Datix. A list of BSOs/BSMs with access to Datix within each Directorate and Sub-Directorate is posted on the intranet.

The potential impact of a Cyber Security incident on the Western Trust	Information security across the HSC is of critical importance to the delivery of care, protection of information assets and many related business processes. Without effective security and controls; compromises can arise from technology and people which can lead to breaches of Data Protection Act and Network and Information Systems (NIS) regulations. Compromises can arise from: • NON Managed Trust ICT Equipment (e.g. Radiology modalities, cameras, door access, medical devices etc) in areas such as Radiology, Labs, PFI, HSDU, Estates, GP's etc are operating un-supported operating systems, e.g. Windows XP, and/or do not have the most up to date software updates (patching) which can lead to Ransomware attacks, introduction of malware or hacking incidents • Lack of Cyber Security awareness or training among Trust staff • The outcomes of a compromise, due to a cyber attack/equipment or network failure/damage/theft or erroneous mistake(s), could result in: • unparalleled HSC-Wide disruption of services due to lack of/unavailability of systems that facilitate HSC services (e.g.	Data & System backups 3rd Secure Remote Access Server / Client patching HSC security software (threat detection, antivirus, email and webfiltering) HSC security hardware (eg firewalls) 3rd Party Contracts / Data access agreements Contract of employment HR Disciplinary Policy Mandatory training policies Induction policy Regional and local Incident Management & reporting policies & procedures Corporate Risk Management framework, Processes & monitoring Emergency planning & Service business continuity plans Disaster recovery plan Usr account management processes Change control processes Data protection Act Regional & Local ICT info security policies Band 7 & band 6 recruited to support Cyber security Trust and Regional Cyber Project Boards	Current inability to obtain 100% coverage on patch updates due to a combination of user behaviours and service needs. Insufficient User Awareness of impact of personal behaviours in relation to cyber threat. Full extent of gaps are not understood at this point - Gap analysis regionally and locally required by HSC to capture a considered extent of vulnerabilities. Insufficient corporate recognition and ownership of cyber security threat as a service delivery risk	Internal audit / IT Dept self-assessment against 10 Steps towards NCSC Technical risks assessments and penetration tests. HSC SIRO Forum for shared learning and collaborative action planning and delivery	There is a resource issue regarding Cyber Staff in the Trust. The Business Case that was approved should address this pressure however experience from other Government Organisations would suggest that is difficult to attract and retain specialist skills in this area. Unable to have consistent patching of critical/core servers due to service disruption. Limited testing of Data and Systems restores.	Implementation of cyber security work plan which has been agreed with the Region. Recruitment of Band 7 Cyber Security Manager. Recruitment of Band 6 to support implementation of Cyber Security Action Plan. Full implementation for Metacompliance across the Trust with regular course updates being issued thereafter. Financial Management & Performance. Modernisation.	Inability to access domiciliary care in a timely manner	There is a risk that both hospital patients and community service users will not receive their assessed domiciliary care package in a timely manner. Patients delayed in hospital may be at greater risk of infection and/or falls. Patients in the community may be a greater risk of falls or other injuries. Community service users may have to wait longer for their assessed care package as hospital patients may be prioritised for care packages to maintain hospital flows. Adult Community Care Divisions are experiencing difficulties with accessing responsive domiciliary care service provision due to the following factors: Rurality and the ability to source and secure a sustained domiciliary care service provision in some remote areas across the Trust. This risk is impacting service users and carers across both community and hospital care settings resulting in delayed discharges, temporary placements being made in nursing and residential homes and unmet need being reported which is impacting service users and their families / carers.	Interim additional rotas have been established in 12 locations across the Trust through a co-ordinated exercise to address issues where accessing service provision has been identified across all POC's. The Trust continues to implement its reablement service model which is operationally linked to the reform of its in-house homecare service. The combination of these measures is will assist in addressing the risks being experienced and reported.	There is unmet need mainly due to difficulties in recruiting carers, particularly in rural areas	PCOP Domiciliary Care Waiting List There are a range of monitoring and reporting processes in place to ensure this risk is actively monitored A service response to assessed need is progressed on each individual cases through keyworkers and brokerage Actions are taken with regards to the position as reported through these assurance and monitoring mechanisms PFA Discharge Targets Daily Delayed Discharge Report	The focus remains to ensure optimum utilisation of available resource and progress actions in areas where there are clusters of unmet need Total assurance cannot be given as the demand and location of cases cannot be projected or planned for. Failure to comply with procurement legislation re social care procurement	The risk that the Trust will breach UK procurement legislation rules in awarding contracts for the provision of social care services. The legislation outlines that a formal tender process must be followed when awarding contracts that are expected to be above a specified threshold. This is to be managed by BSO PaLS on behalf of all Trusts but the current proposed work programme means that Trusts will not be fully compliant with the legislation for a period of 5 years ending on 31 March 2022.	The issue has been discussed at the Trust's Procurement Board and Social Care Procurement Group. The Trust's Director of Finance & Contracting has highlighted this issue to the Regional Procurement Board.	The Trust does not have the resource or infrastructure required to manage this risk internally. DOH has determined that the issue should be managed regionally.		The 5 year implementation plan will continue to be monitored - via Regional Procurement Board, Trust Procurement Board and Social Care Procurement Group.	31/03/2021

No Deal Scenario / Hard Border EU Exit	With the imminent EU exit, there is potential for a No Deal Scenario or Hard Border between North and South of Ireland. The full impact of the UKs exit from the EU is not yet known and given uncertainty around the UK EU ongoing discussions and potential agreements, there may be impacts such as - workforce, including recruitment and retention, changes to regulations, movement of people and goods, border controls and access to healthcare in EU member states. Day one delivery planning is required to ensure services continue to operate effectively on day one following EU Exit and in the longer term, and that there is no, or minimal disruption to services. Although this is categorised as an organisational risk it also has implications for clinical risk, financial risk, patient and client safety and staffing issues/levels. Lead Officer is Paul Quigley and Reponsible Director is Lesley Mitchell, Director of Finance and Contracting.	Detailed review of mitigating actions to be completed by 30 December 2018. Increased frequency of meetings of both regional and local Task and Finishing Groups. Labour, including Cross Border analysis, to be made available to service colleagues. Continuity Plans developed for Pathology, Pharmacy, FM and Paying Patients department with all other areas in progress and due to be submitted by 24 January 2019. Details of staffing implications by Directorate sourced and being pulled together by HR. The Trust continues to attend various regional forums on EU Exit, including the DoH EU Exit Regional Meeting and other Regional Meetings such as Medicines Preparedness, Information Governance, HR and Emergency Planning. Final Version of Yellow Hammer Document received by Trust EU Exit Task and Finish Group meet monthly. Day one delivery plan developed and reviewed.	The DOH reported that further discussion at the EU Exit ALBs meeting has clarified that disruption to health and social care services is not anticipated as a result of any impediment to movement of people at the border and that existing business continuity plans and mitigating actions for potential staff shortages should apply and suffice. Anne Kilgallen, Trust CE has fortnightly meetings with Richard Pengelly and CE of HSC - of which EU Exit and associated continuity planning progress are discussed.	Continued regular update internal EU Exit Meetings and updates to CMT. Application of any regional or strategic directives on EU exit. Trust representatives continue to be involved in regional working groups led by DoH in order to inform and assist the Trust in EU Exit Planning.
