No More Silo's – Service User and Carer Engagement webinar

What is No More Silo's

In August the Minister of Health approved the establishment of an interim 'No More Silos Network' to produce detailed proposals for the reform of Urgent and Emergency Care.

In October, the Department of Health published its COVID-19 Urgent and Emergency Care [Action Plan](#) – 'No More Silos'.

The Plan sets out 10 key actions to ensure that urgent and emergency care services across primary and secondary care can be maintained and improved in an environment that is safe for patients and for staff, both now and into the future.

What will the webinar consist of?

During this webinar, we hope you will get the chance to ask questions and learn more about the No More Silo's work and learn how you can become more involved in the process. We will have presentations from leading staff to bring you up to date on the work so far. We have then put together an expert panel to answer any questions you may have.

Interested in taking part?

If you are keen to learn more about No More Silo's and how to get involved, please click on the link here and register.

To help us with the event, please let us know if you have any specific questions you would like to ask when registering your interest.
