

Hello, my
name is
Coronavirus.

I'm sure you've heard my name
before but you may not know an
awful lot about me.

I'm **really** really small!

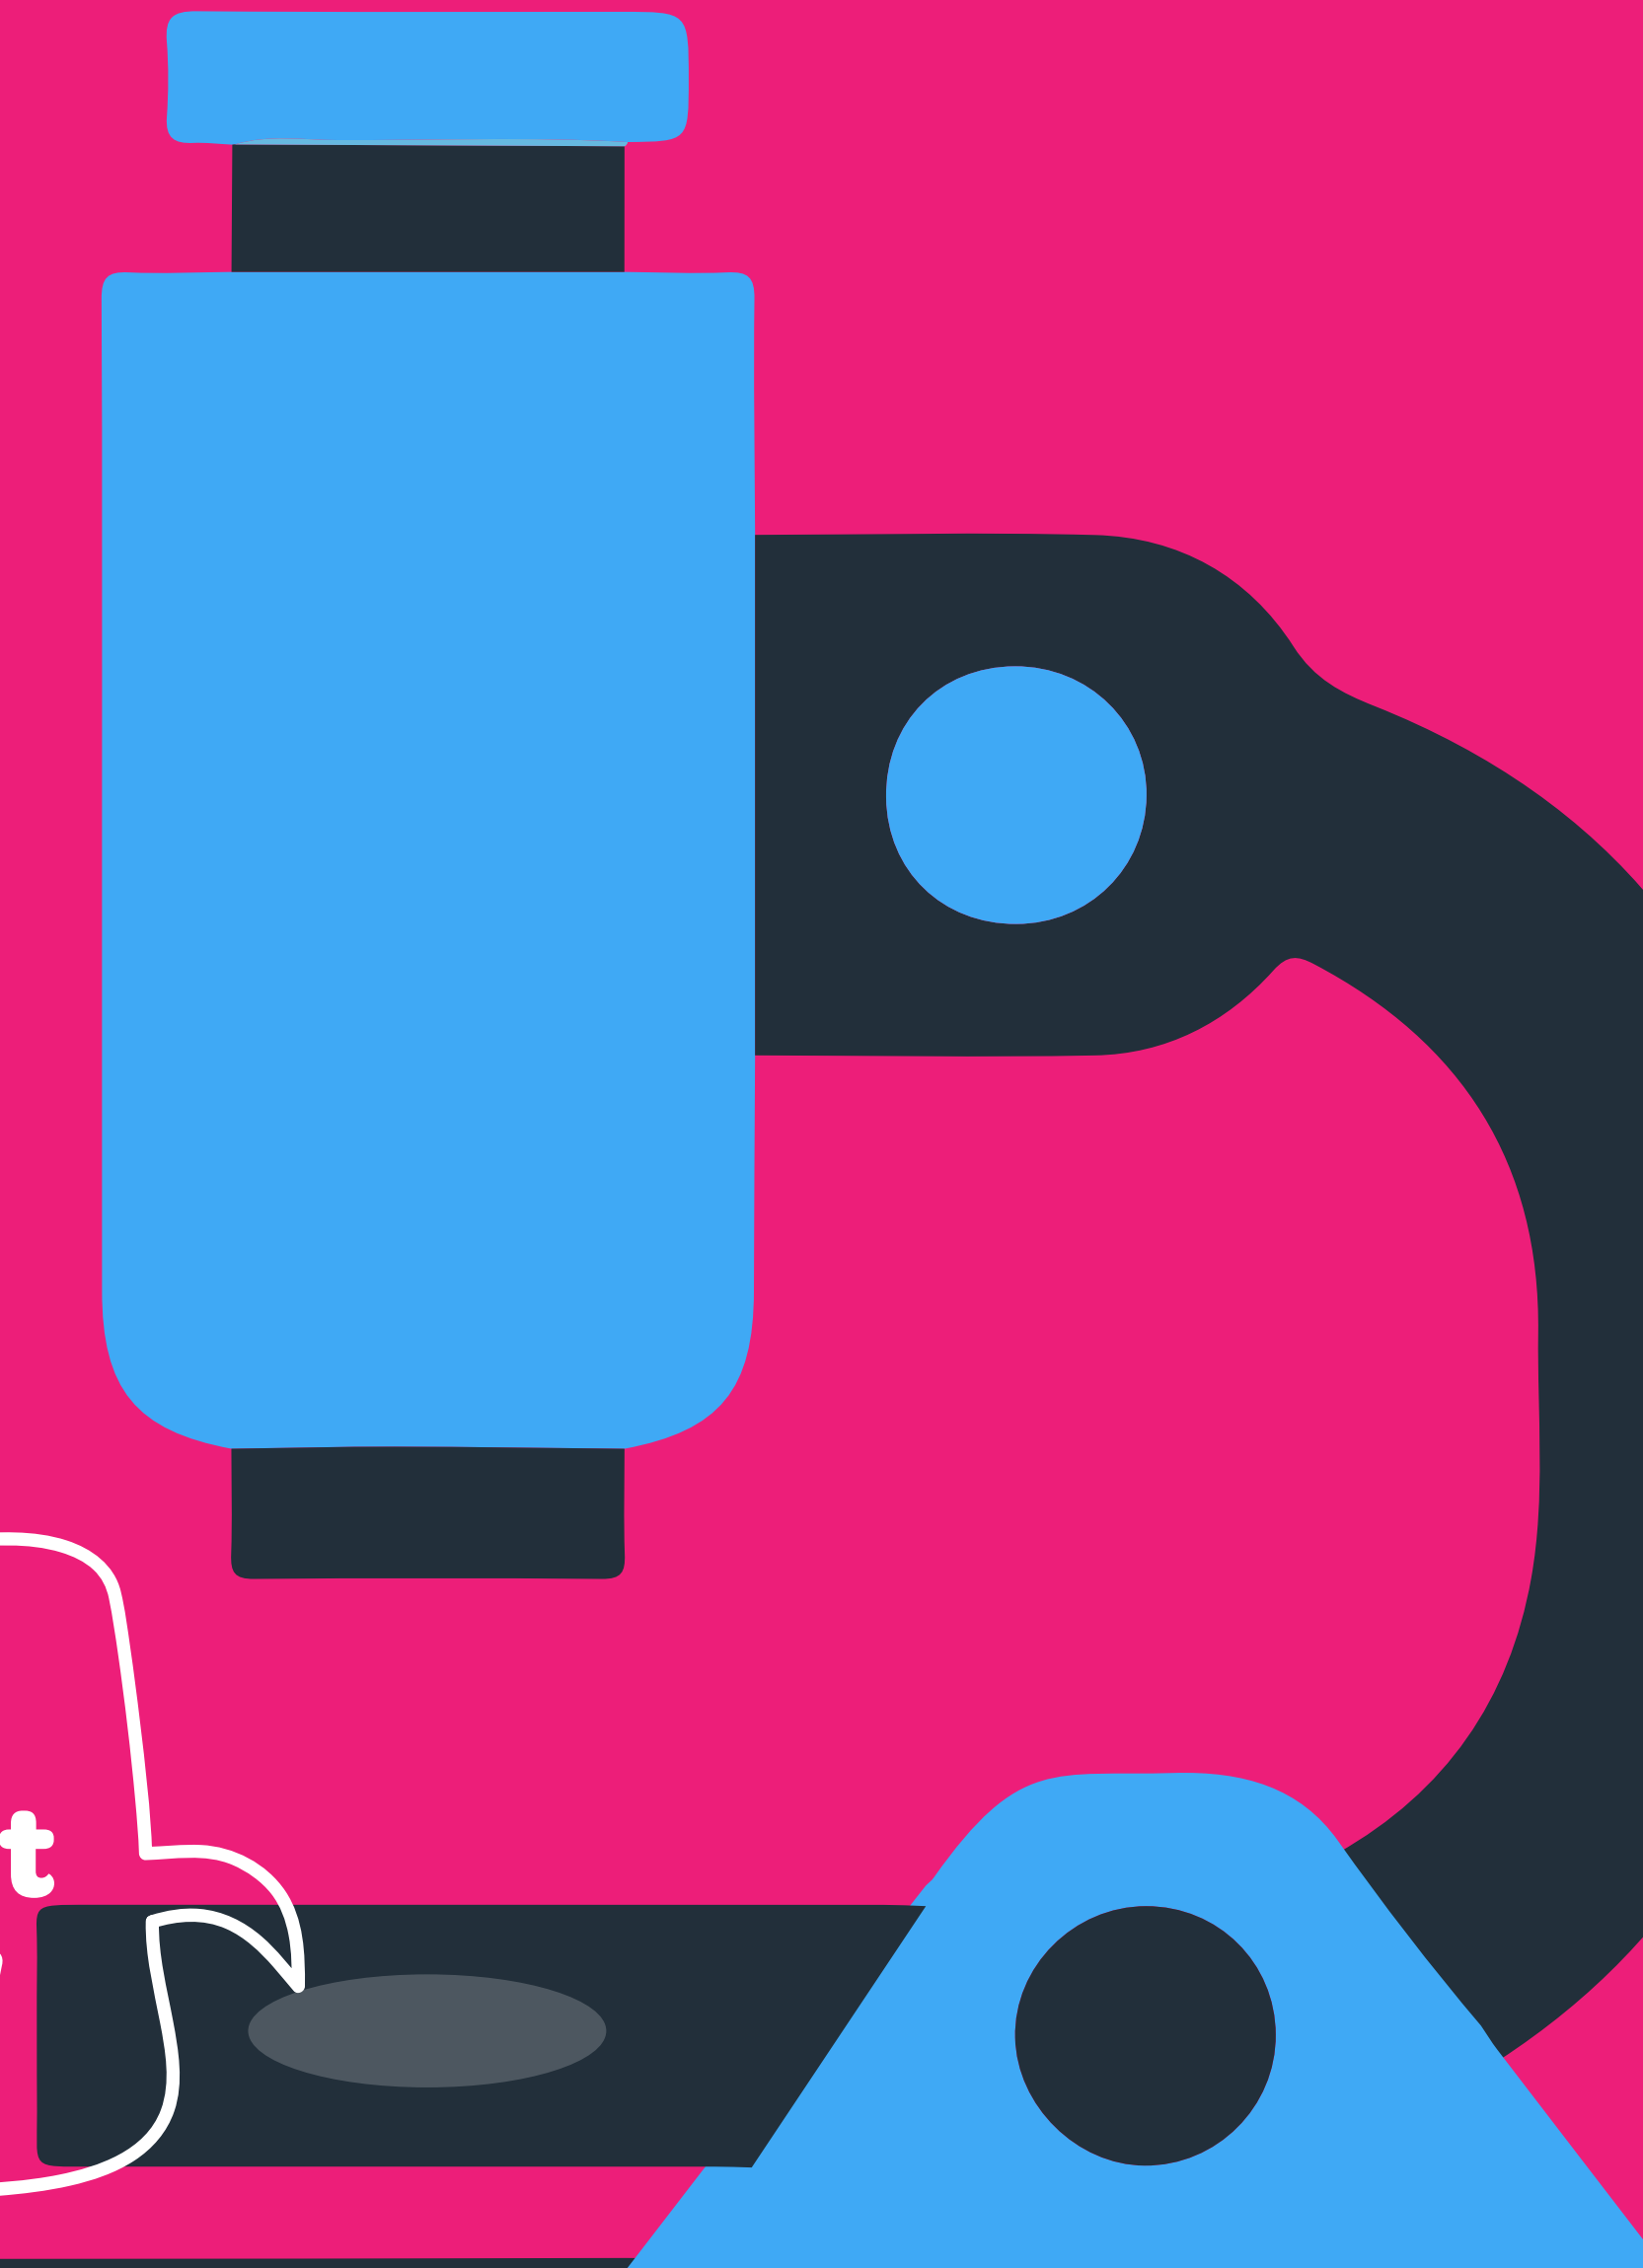

Even if you used a microscope, you wouldn't be able to see me!

Can you guess how many of me would fit on the end of a tiny pin?

Well, the answer is millions and millions!

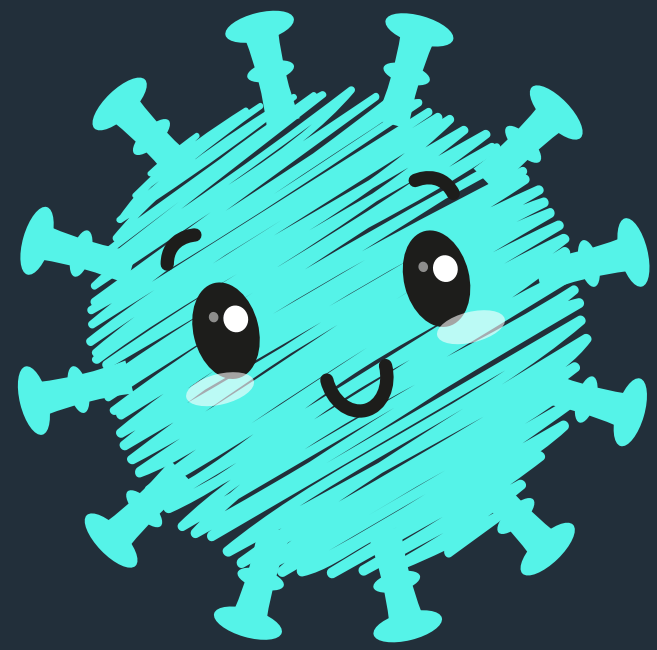

There are lots and lots of copies of me.

Tehe... you can't see me!

**SAFER
SCHOOLS**

**Viruses like me are
all over the world.**

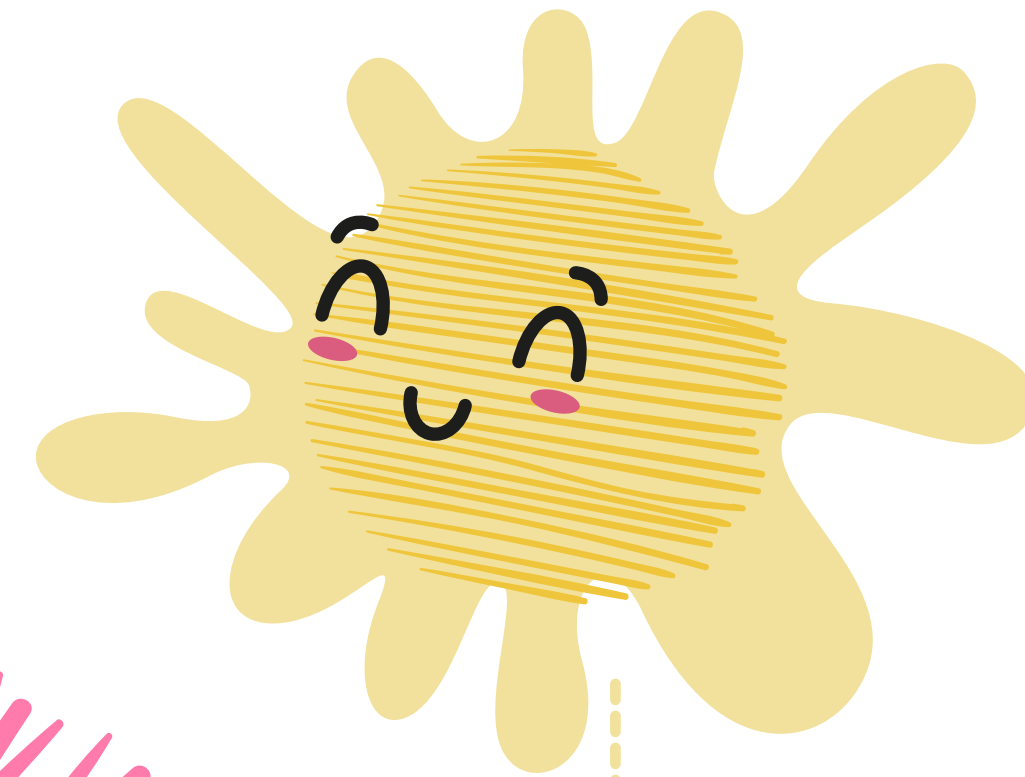

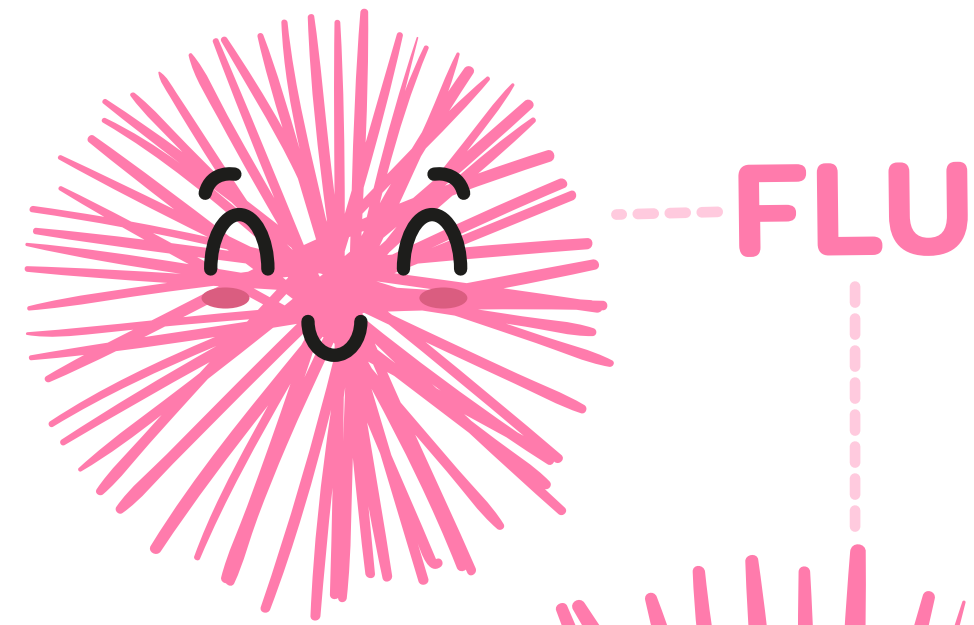

Most of my friends don't
cause any problems -
lots of us live on skin or
clothes or toys.

**SAFER
SCHOOLS**

But some of us,
like my cousins **Flu**
and **Common Cold**,
sometimes make people
feel sick.

COMMON
COLD

COVID-19

When I make
someone feel sick,
they have a **illness**
called **COVID-19**.

*I'm called COVID-19 because I
was discovered in the year 2019*

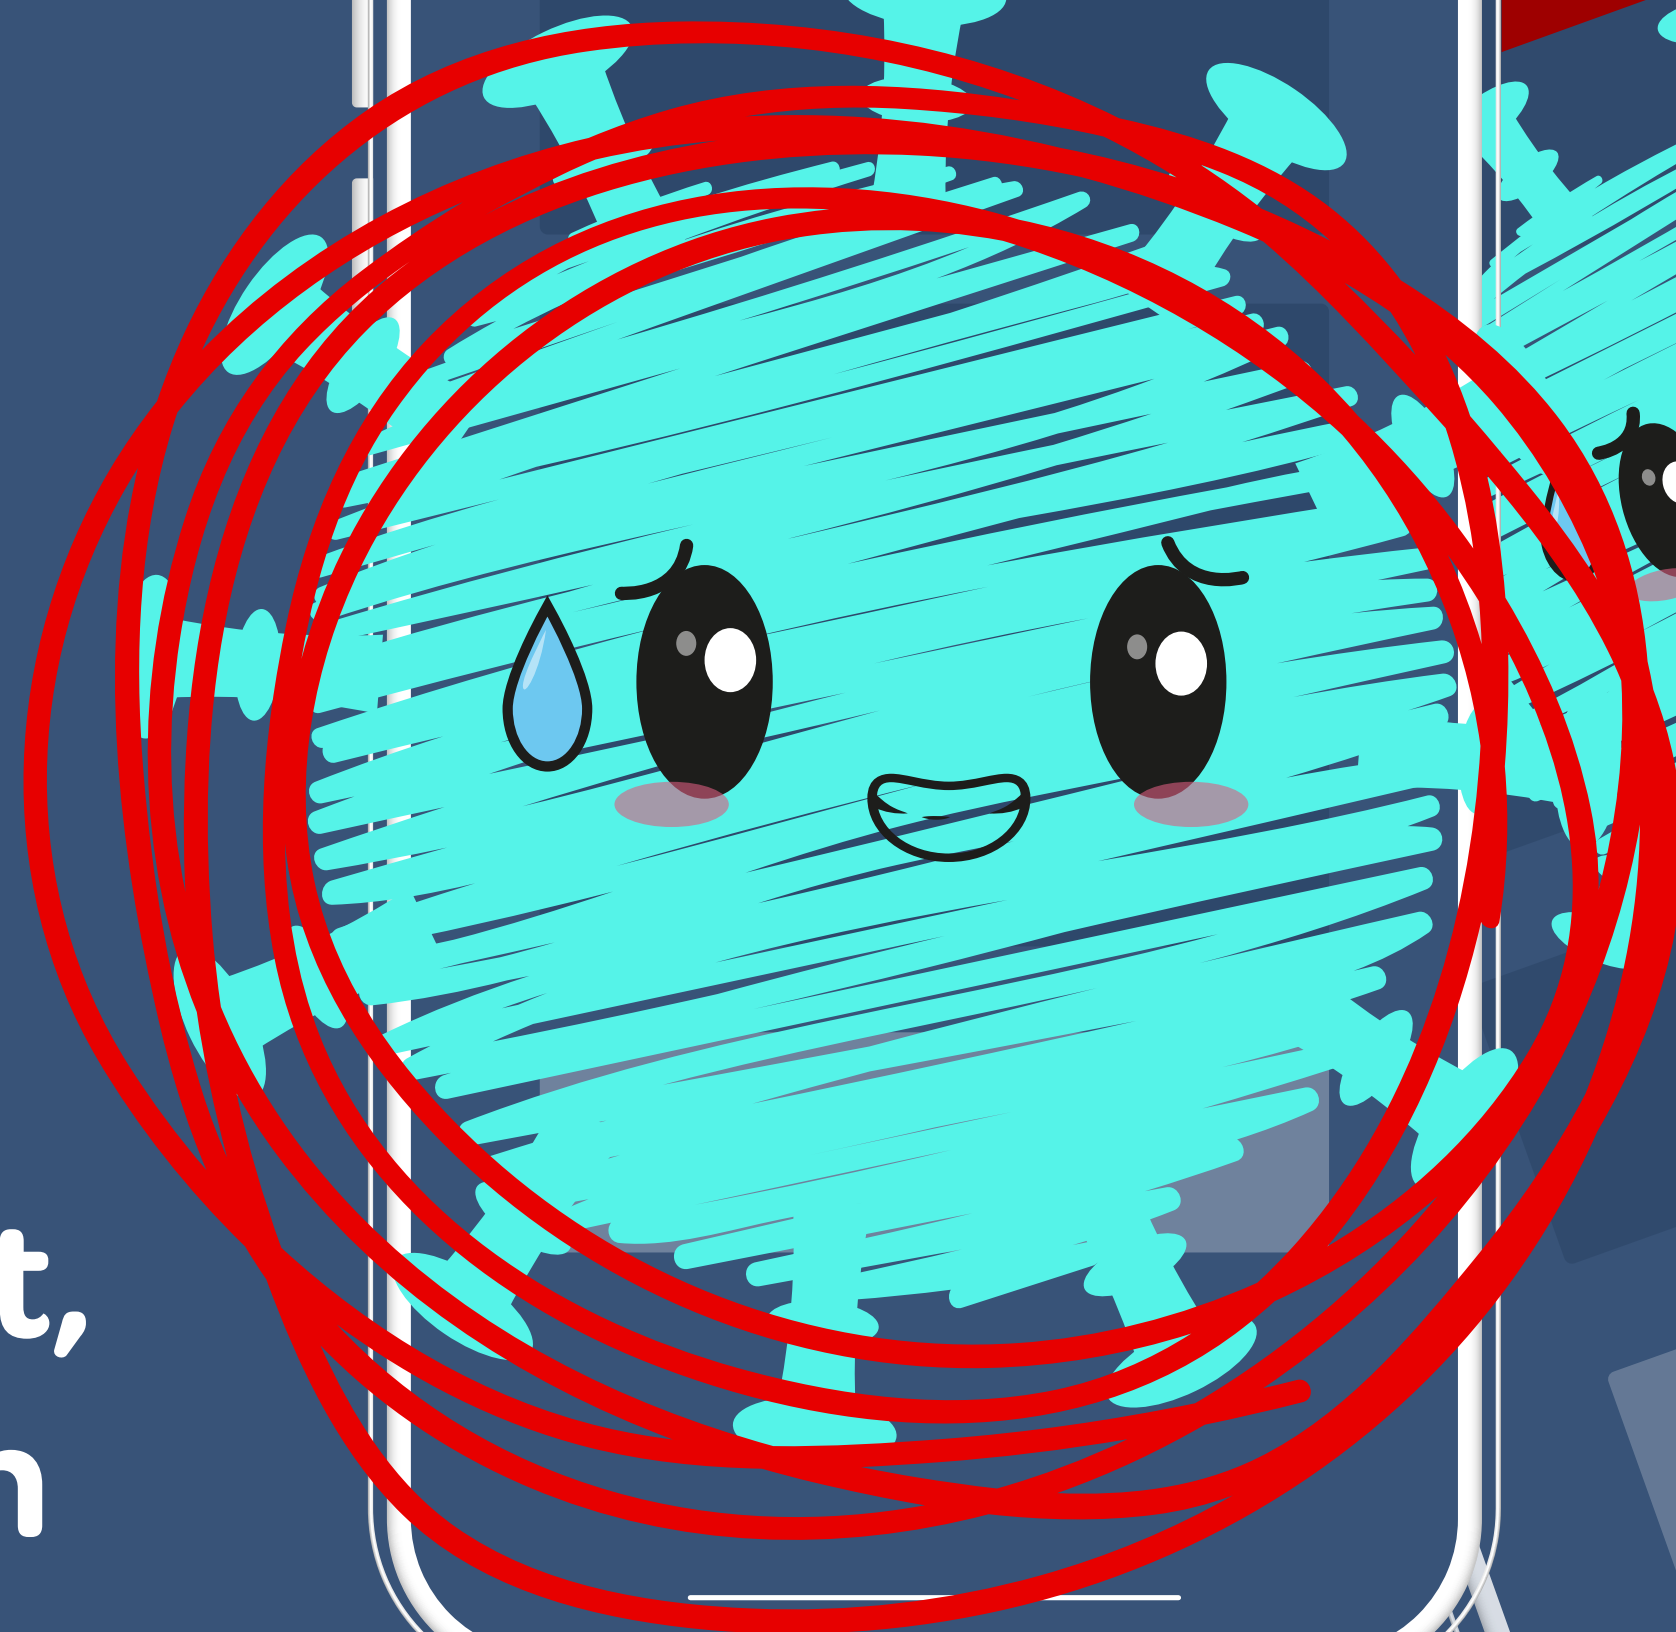

I've
gone VIRAL!

I'm all over the news and
social media at the moment,
but it's important to remain
calm and **sensible**.

NEWS!

LIVE

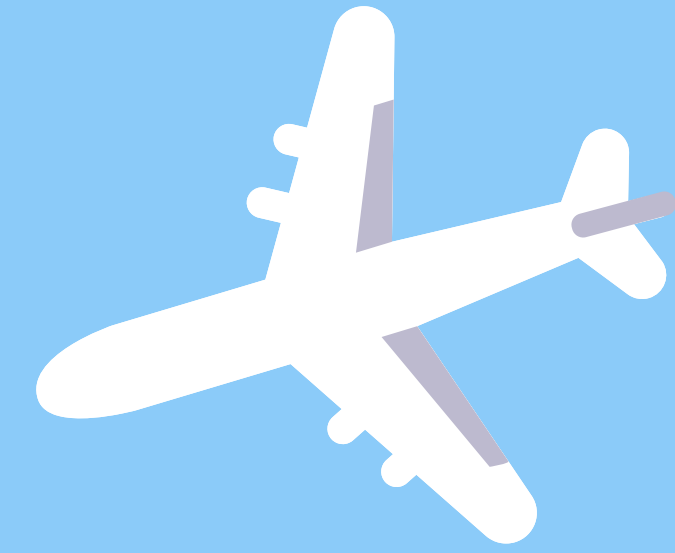

!!!

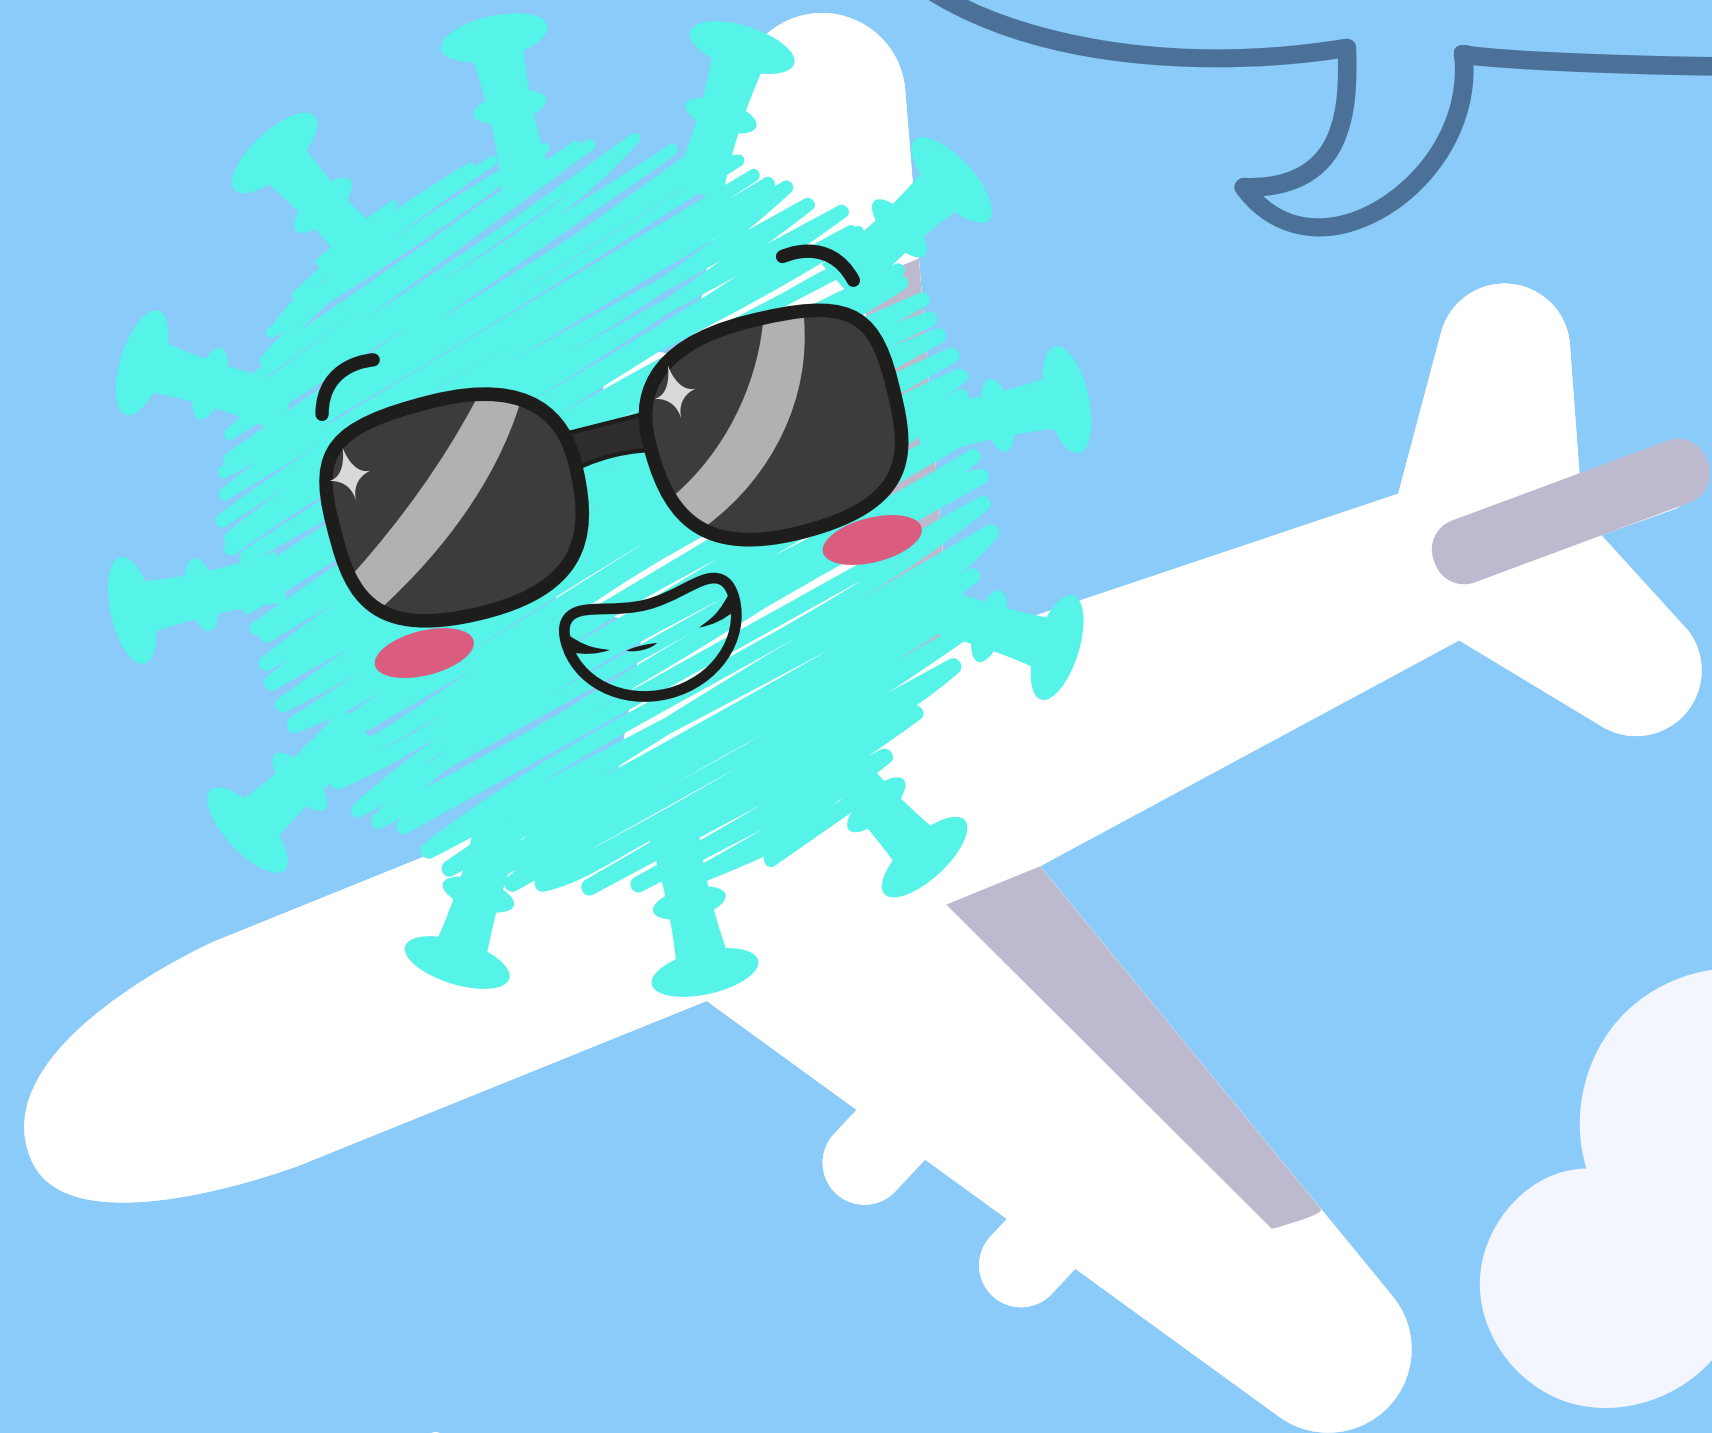

SAFER
SCHOOLS

You may hear a lot of *silly stories* about me online, or rumours about me from a friend...

So let me introduce myself with some facts!

I really like travelling

**I jump from person to
person through...**

coughs,

sneezes

and touch.

Unfortunately, when I come to visit, I might bring a...

None of these things are very nice and can make **SOME** people very sick!

**But, I don't hang around for
long and almost everyone
gets better.**

To help make
everyone safer,
make sure that you...

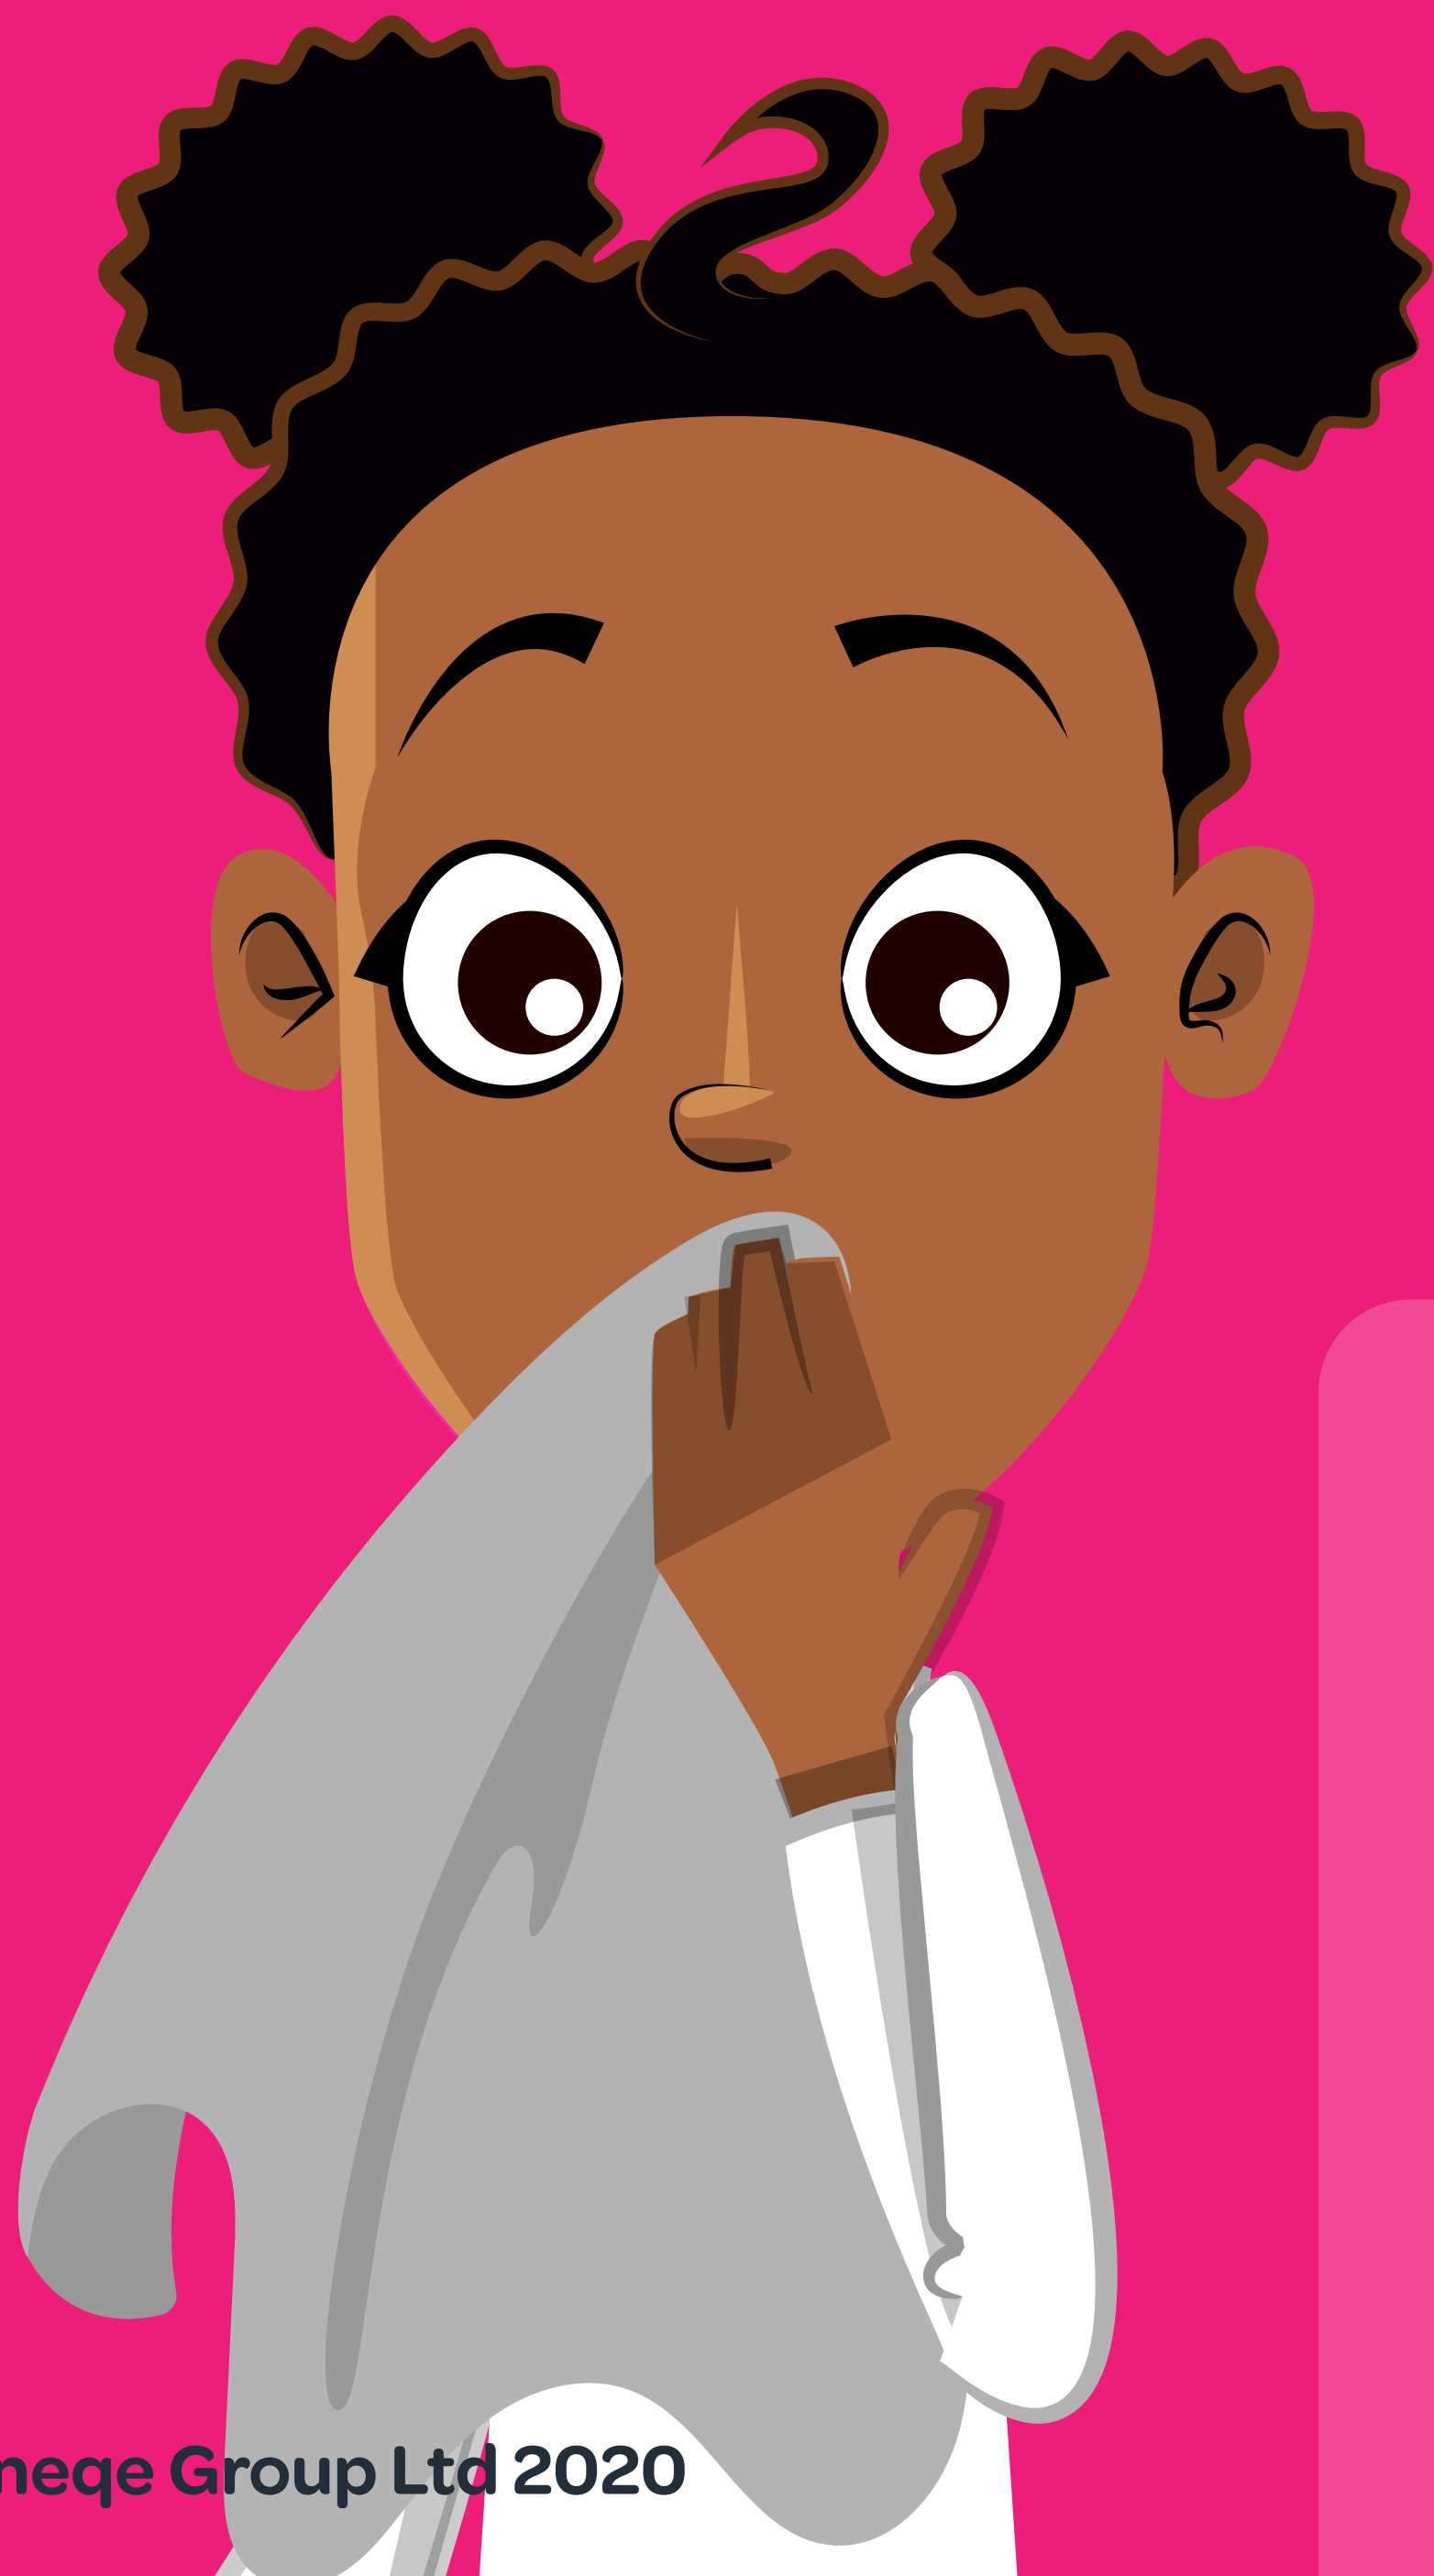

**1. Wash your hands
with soap and water
often and for at least
20 seconds.**

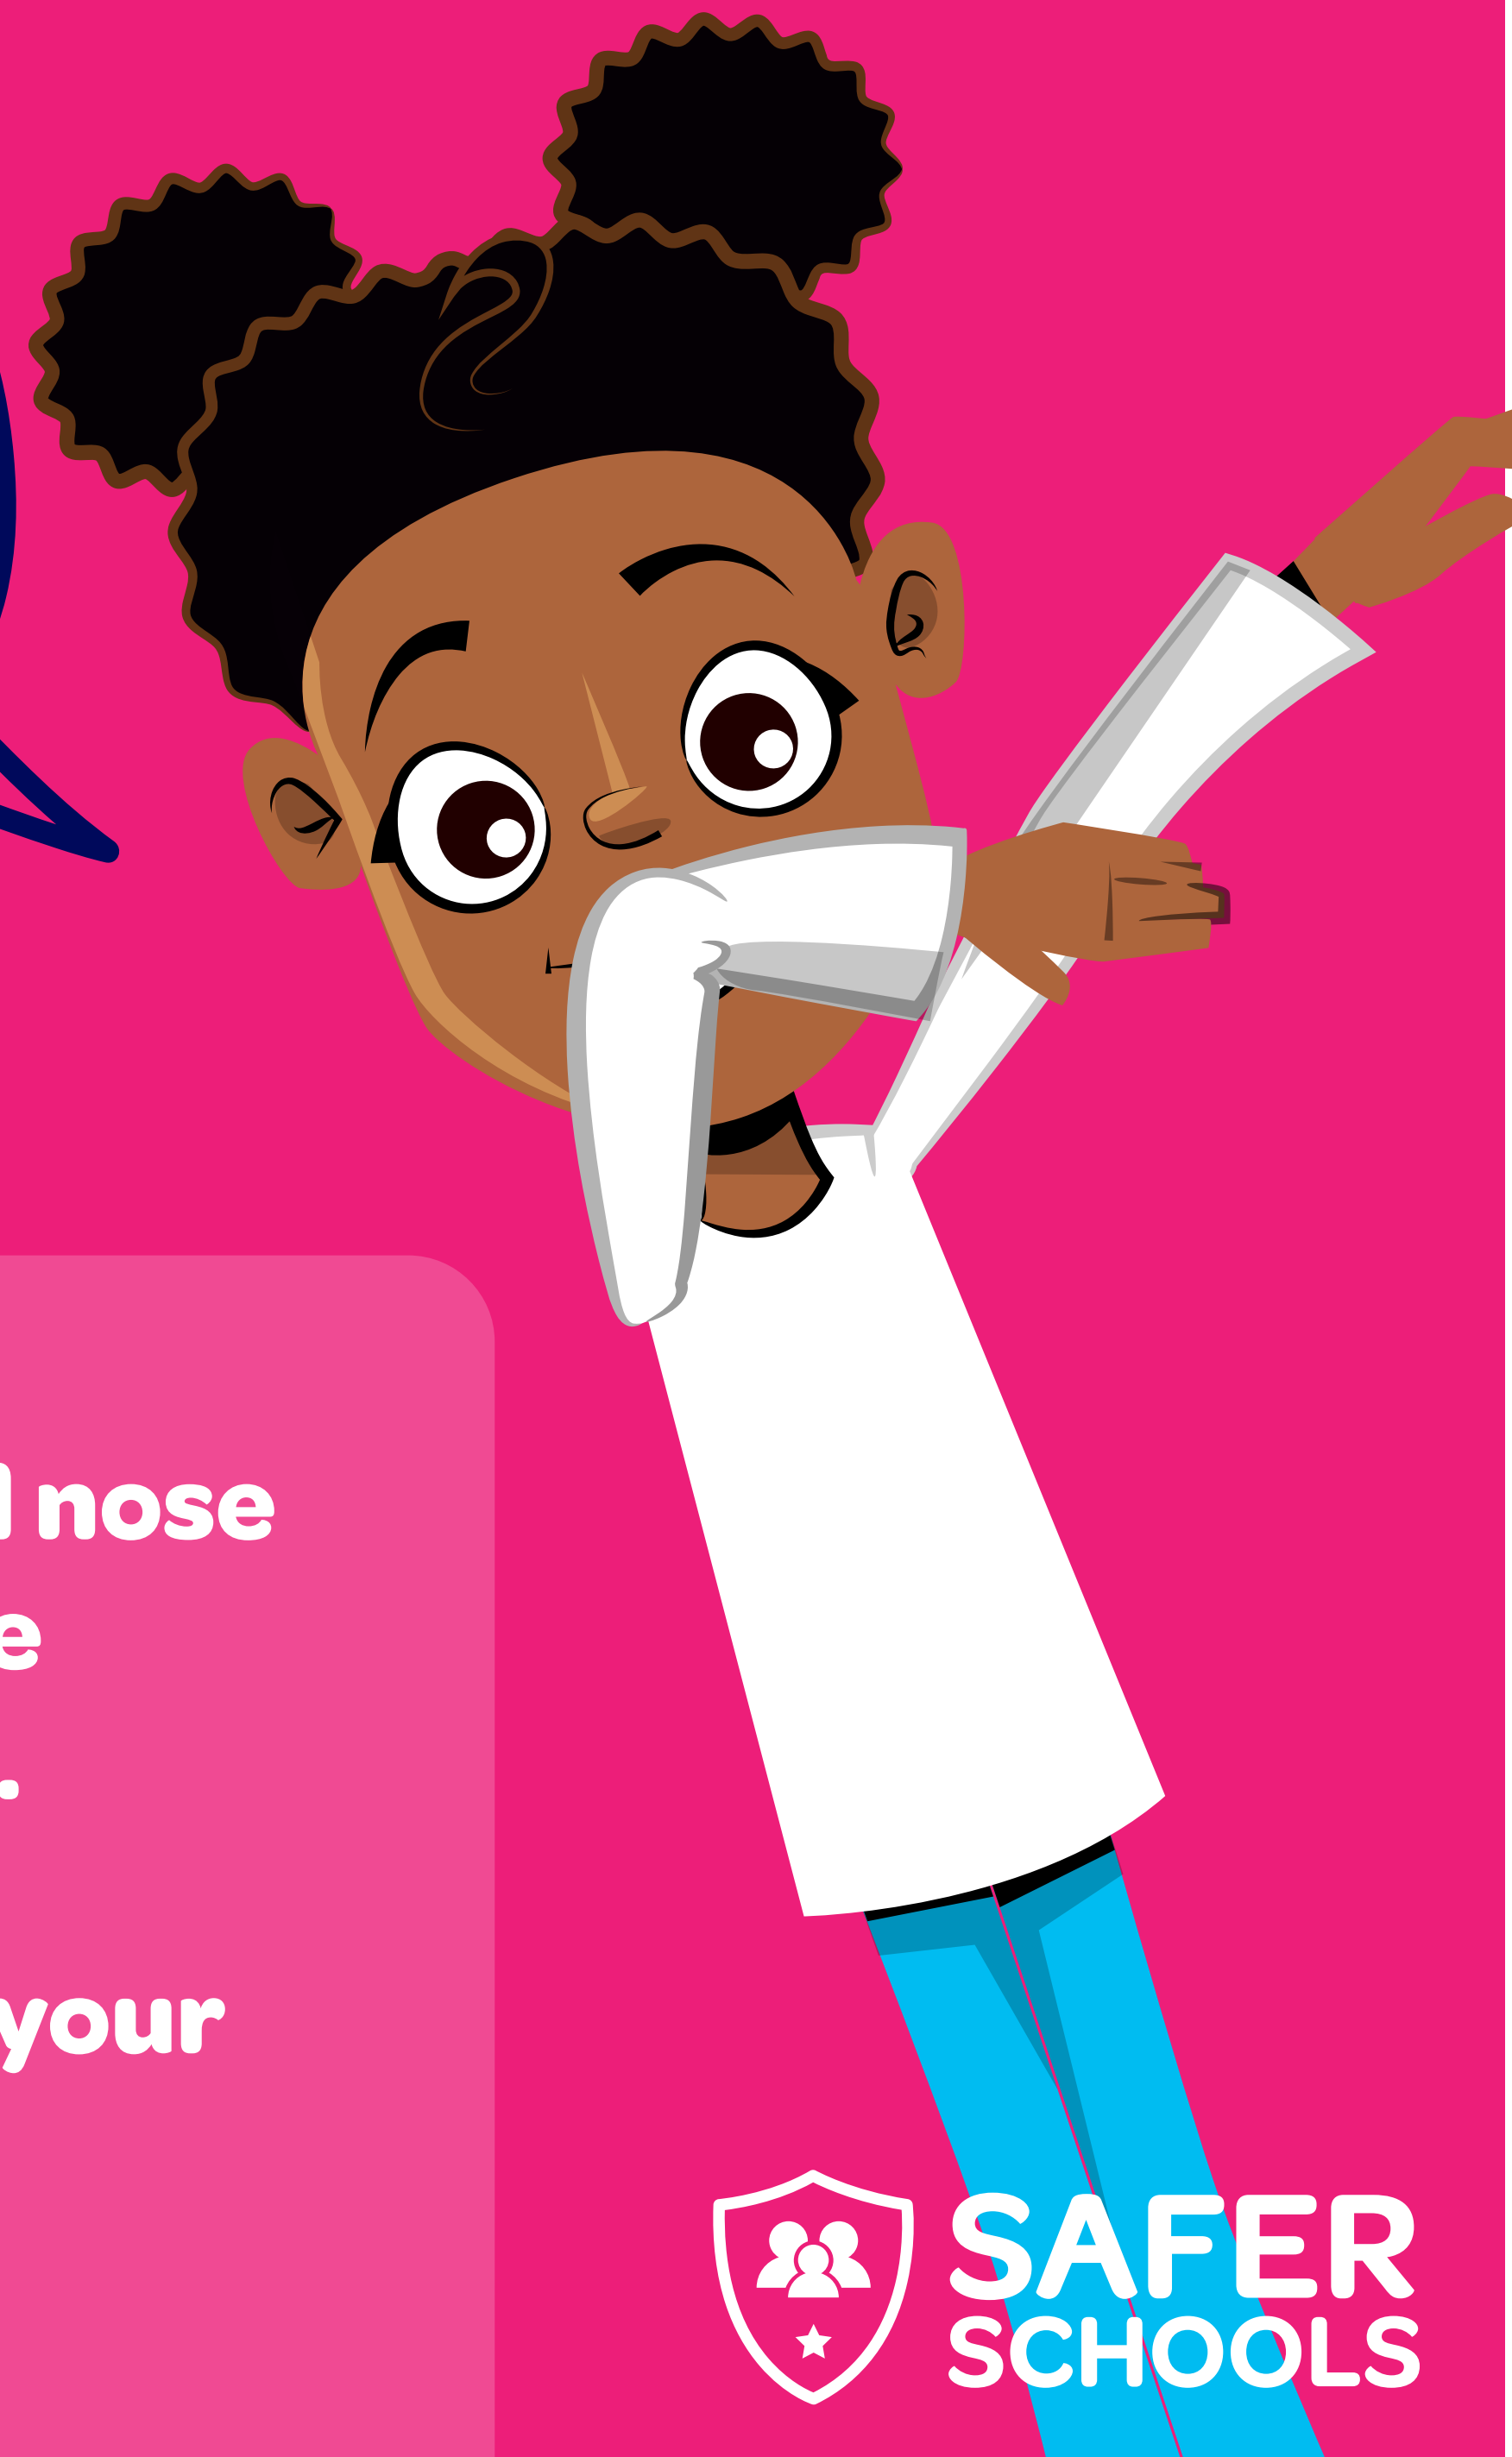

*You could make
sure it's 20
seconds by
singing 'happy
birthday' to
yourself twice
while you wash*

**SAFER
SCHOOLS**

**The 'dab' was
made for a
time like this!!**

**2. Cover your mouth and nose
with a tissue or your sleeve
when you sneeze or cough.**

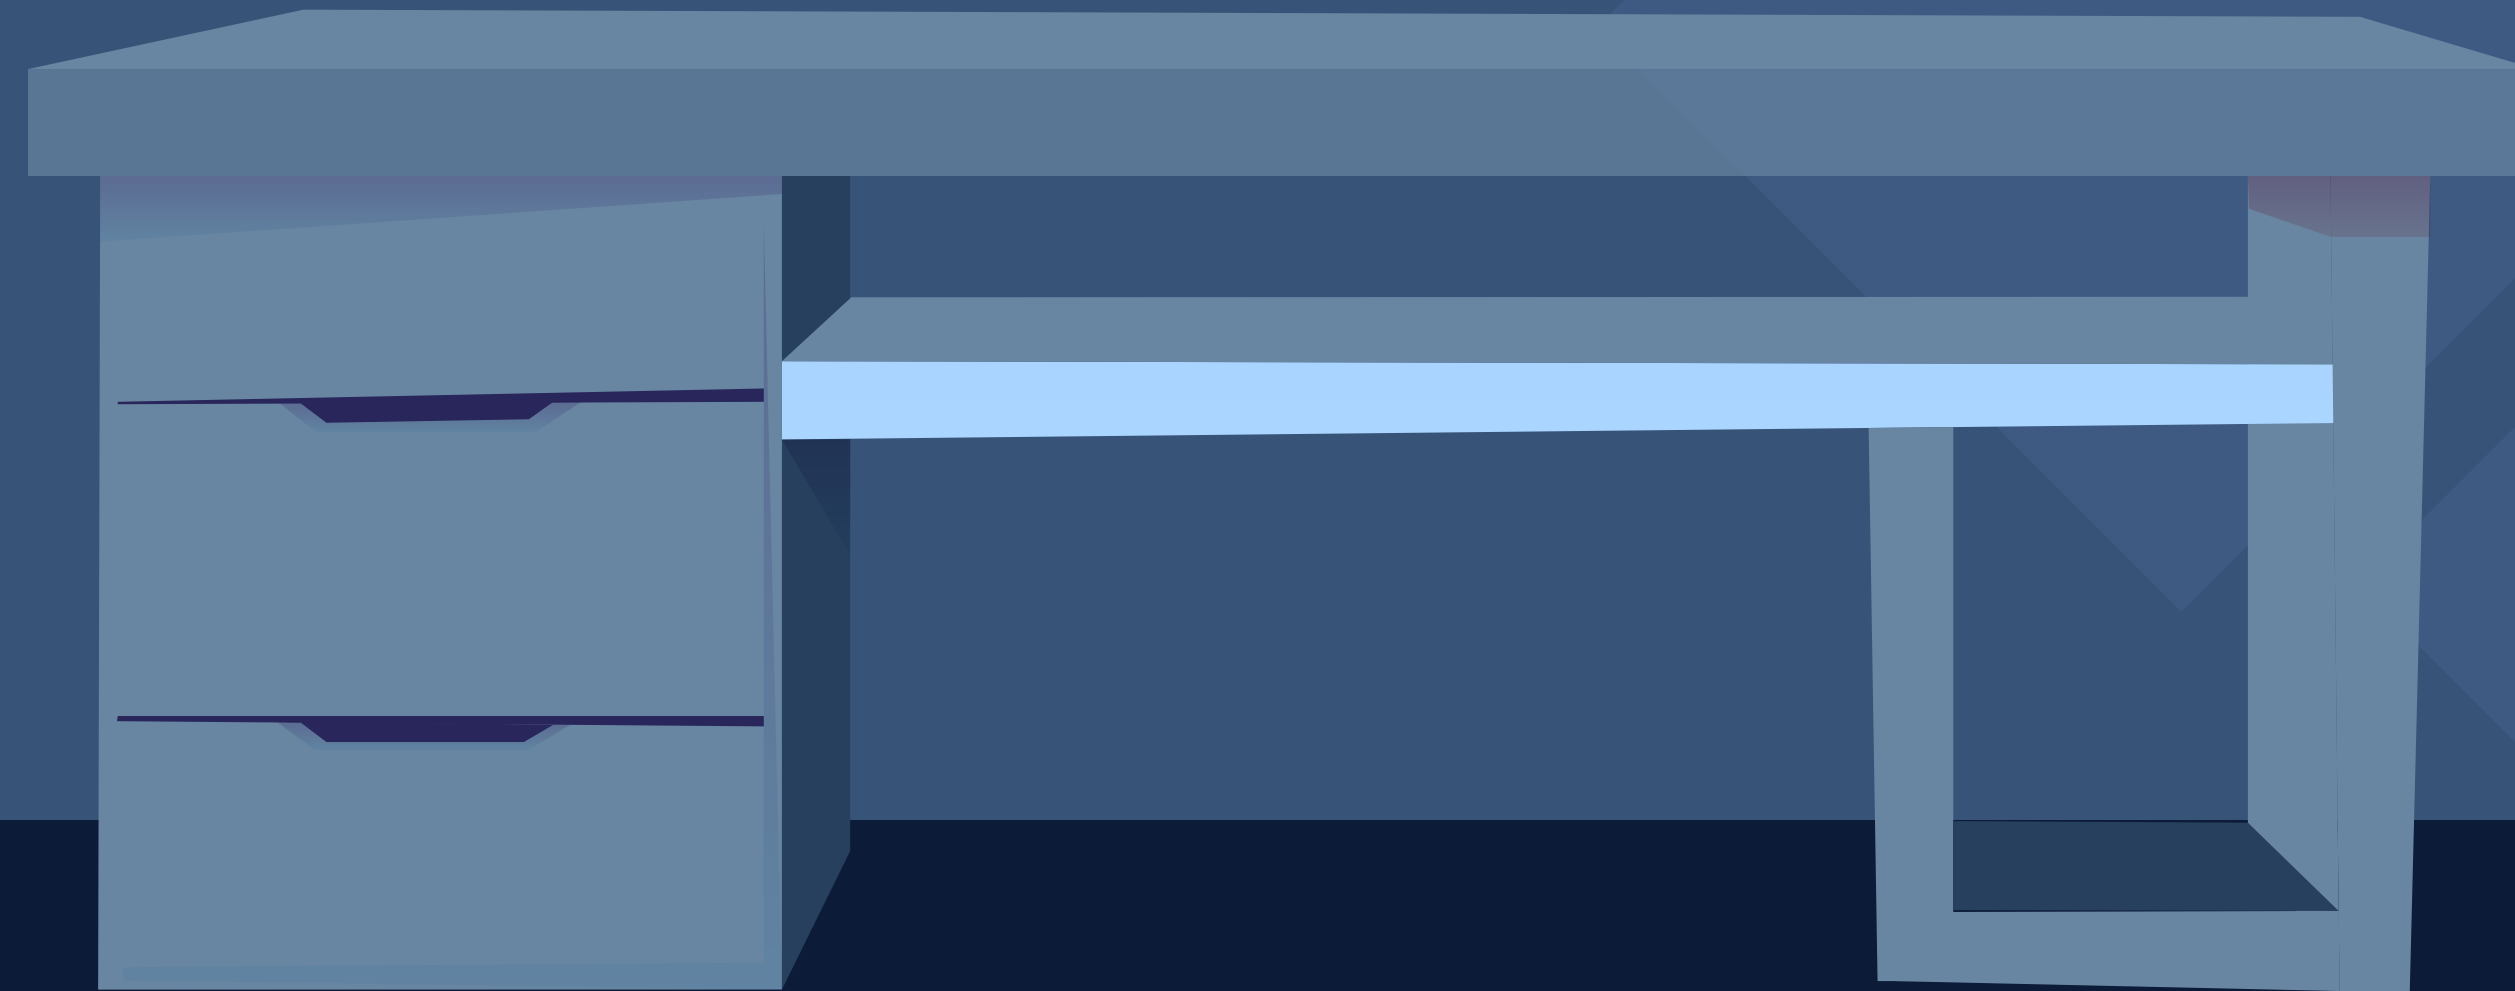

**3. Try to avoid touching your
eyes, mouth and face.**

**SAFER
SCHOOLS**

4. For now, don't touch other people. No handshakes, hugs or high 5s.

2 METRES

**SAFER
SCHOOLS**

When I come to visit, older people are **more likely to get sick.**

This means grandparents may have to **stay at home** by themselves for a bit.

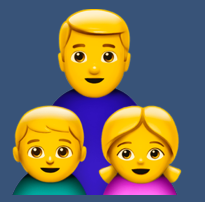

This is a great chance to phone or video call them to see **how they're doing.**

**SAFER
SCHOOLS**

If I come to visit your home, you'll be asked to **stay at home for a while** with your family so that you **don't pass me onto others**.

You can use this time at home to:

-  Keep up with schoolwork
-  Play with your toys and games
-  Help out at home
-  Keep in touch with your family and friends on video calls

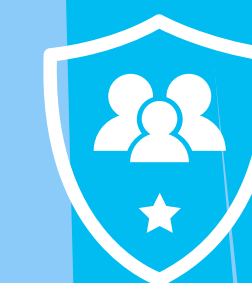

**SAFER
SCHOOLS**

Make sure you tell whoever is looking after you if...

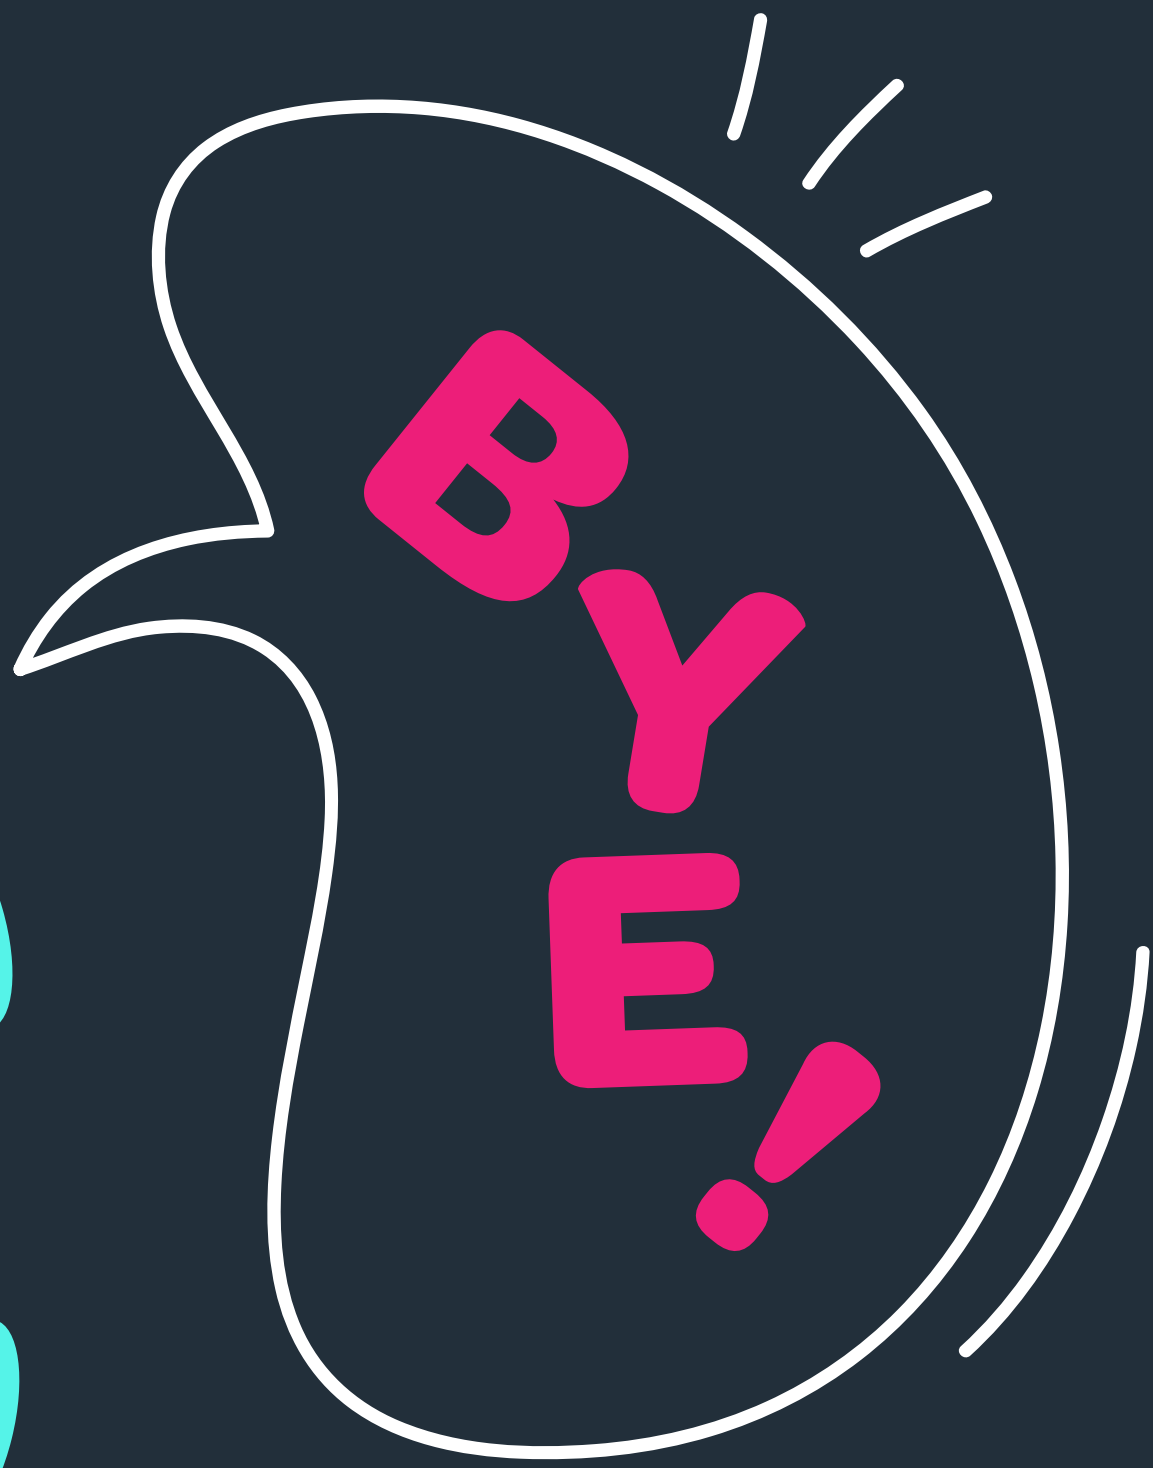

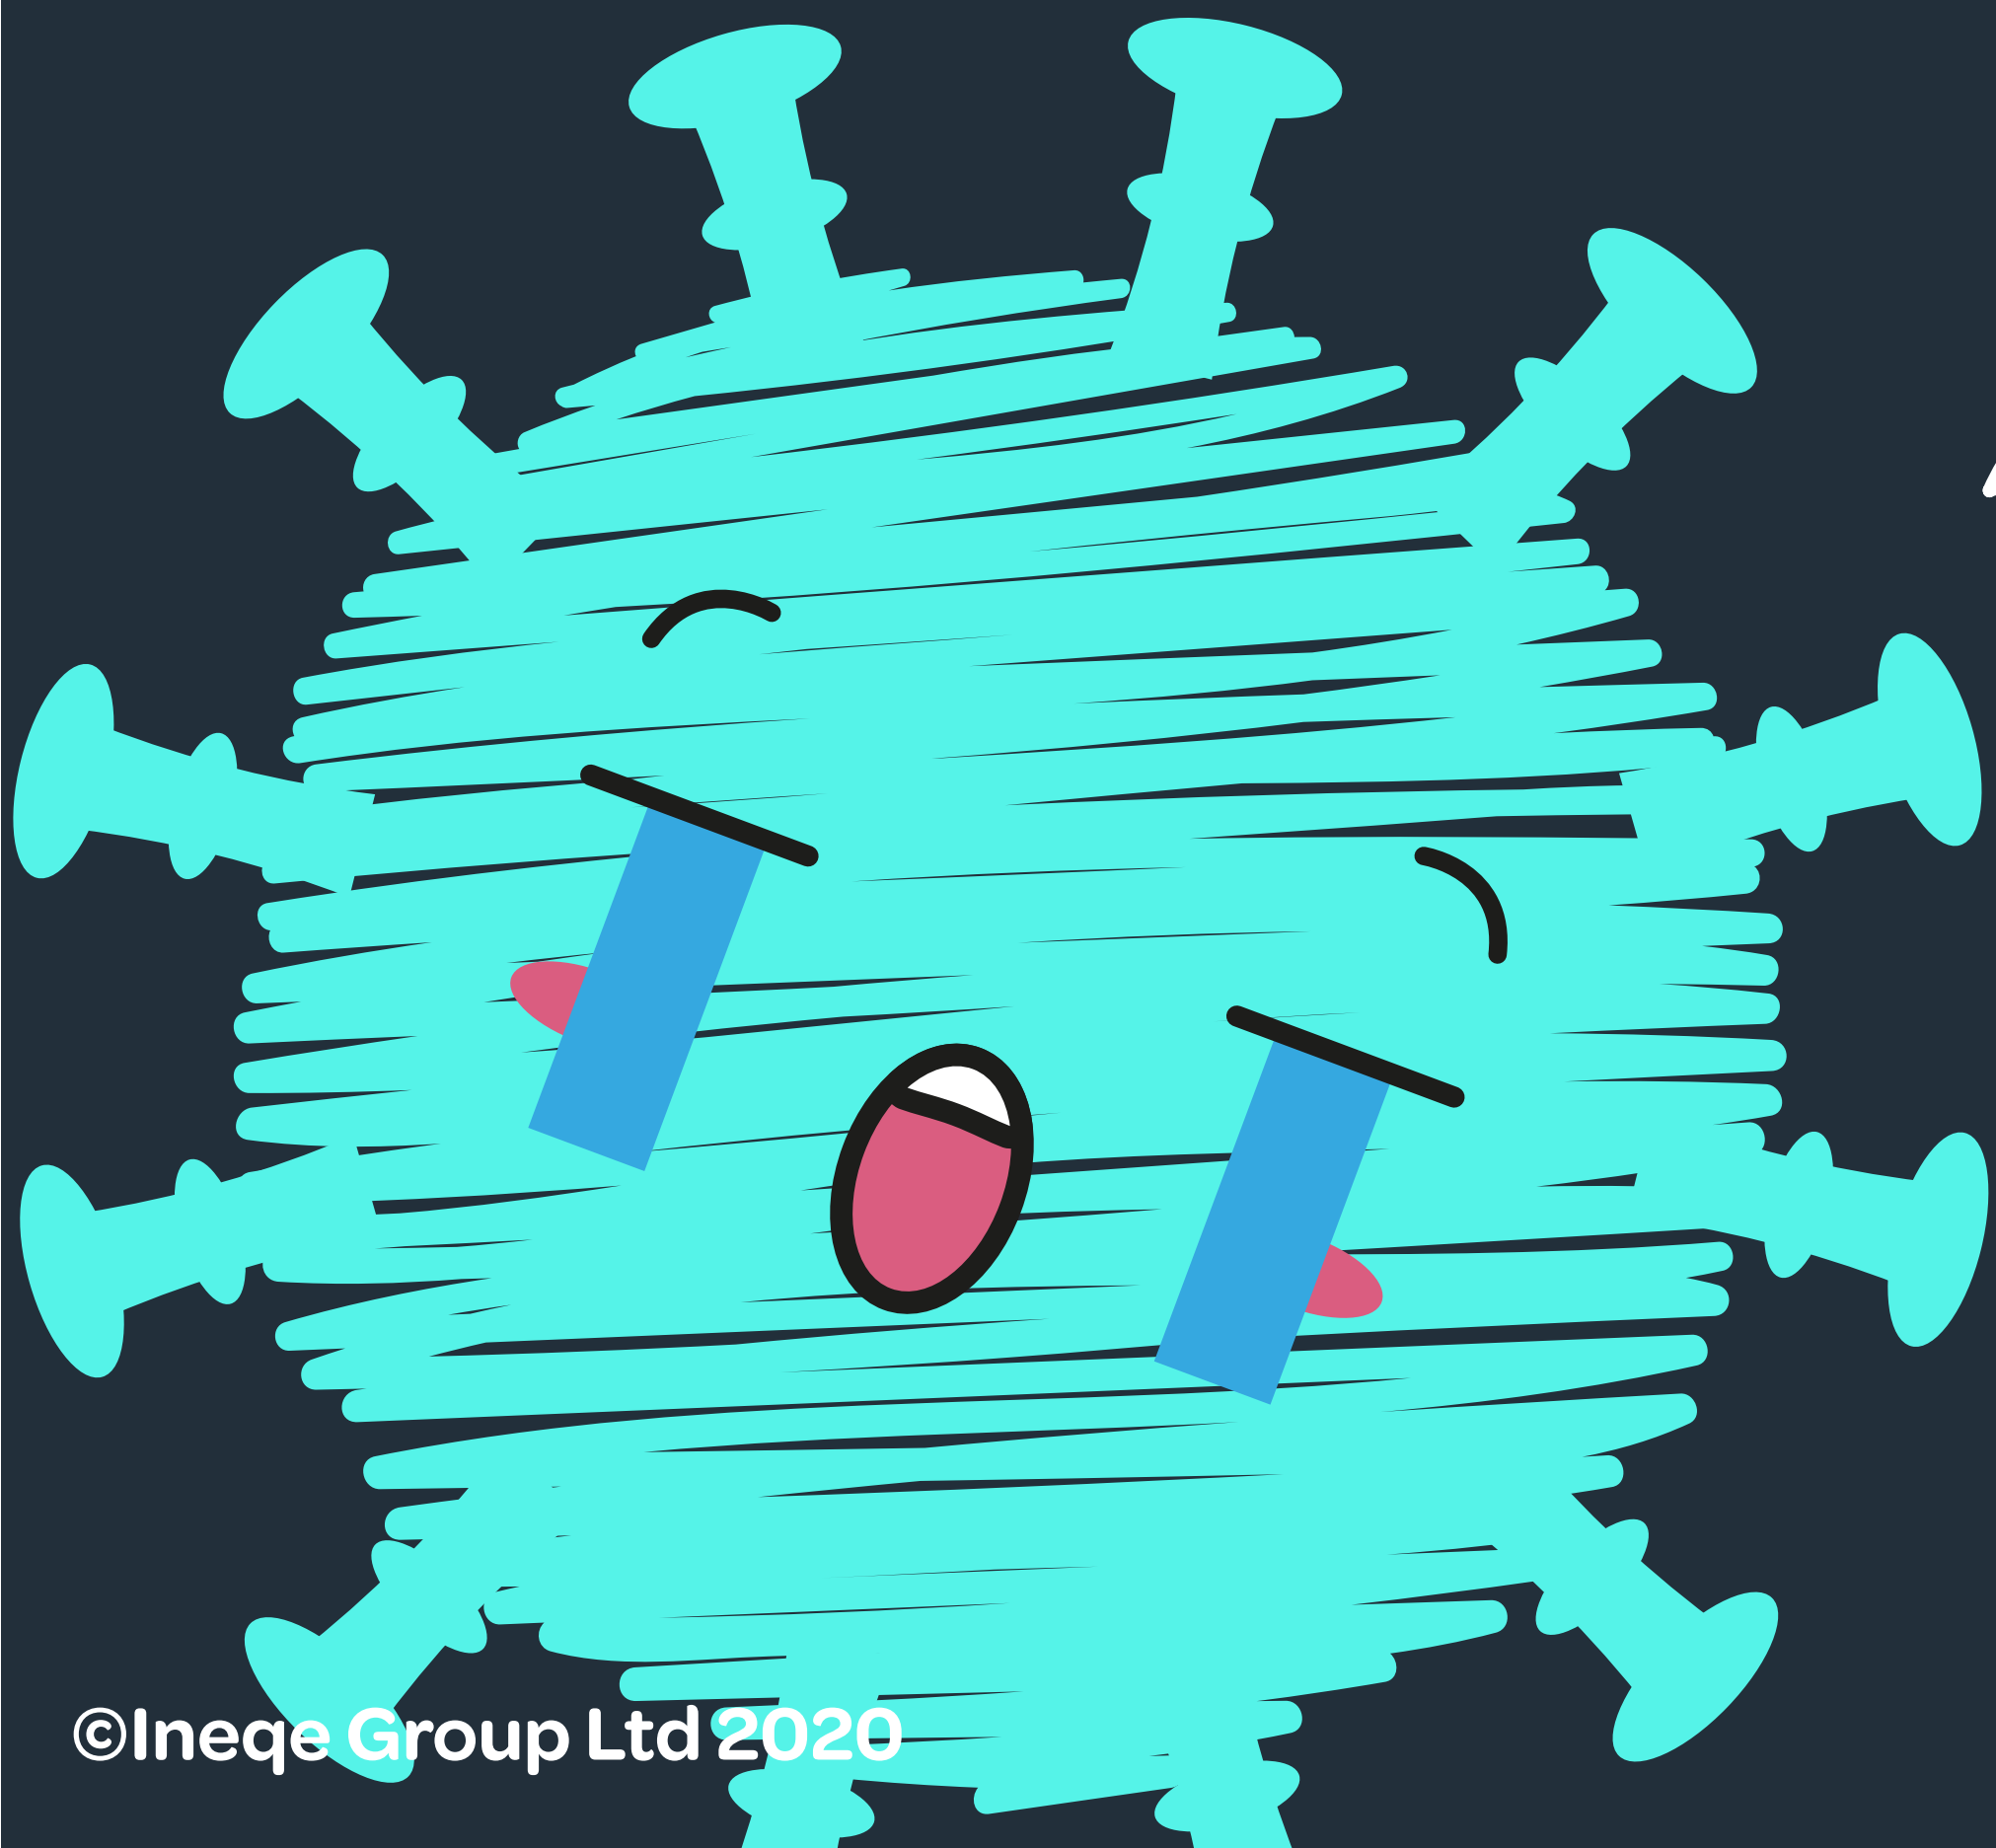

- ✓ **You have a high temperature or a stubborn cough.**
- ✓ **You are worried or nervous.**

They will listen and can help you.

**SAFER
SCHOOLS**

If you follow this advice,
I'll visit less people.
